About me

I am a third-year Software Engineering student pursuing a bachelor's degree. I have a solid foundation in computer science and experience with coding, software development, and problem-solving. I am passionate about building efficient and scalable applications and have worked on various school projects using languages such as Java, JavaScript, and C#. I am motivated to further develop my technical skills and contribute to innovative software solutions in practice. I enjoy learning, adapt quickly, and work well in teams.

Experience

Intern Full-Stack Developer

Feb 2025 - May 2025

Ipcom NV

Inhouse application development and maintenance. Collaborated with cross-functional teams to deliver high-quality software solutions.

Full-Stack Developer
